Professional History

Data Analyst - Chromebookparts.com

May 2024 - Nov 2025

- Developed a data visualization web app to provide data driven decision opportunities for the purchasing department using Go, HTML, CSS, Javascript and D3.
- Developed software to automatically pipe data from Netsuite to Google Sheets while performing data transforms to present relevant KPIs using Python, Pandas, SQL and Docker.
- Performed ad hoc reports and data cleaning on sales, customer and item records using Python and Google Sheets.
- Created reports and dashboards in Oracle Netsuite enterprise resource management software using SQL expressions to provide KPIs to stakeholders.
- Created a customer stats summary for a year-end “wrapped” marketing campaign using Python, SQL, Pandas and Jupyter Notebooks.
- Developed a website to display a vendor parts catalog so the sales team can create product PDFs to send to customers using Astro, Supabase & Deno.
- Developed an AI application to clean new customer leads data using Anthropic and Python.
- Developed software to collect item data from the internet using Python.
- Collaborated with IT to migrate CRM data from Salesforce to Netsuite.
- Collaborated with the sales team on Google Sheets for sales and customer reporting.
- Explain technical concepts to non-technical stakeholders and coworkers.

Computer Hardware Technician - Chromebookparts.com

May 2022 - May 2024

- Collaborated with the repair team to efficiently and carefully repair Chromebooks.
- Worked with the testing team to test incoming computer parts for quality using a library of chromebook parts and tools.
- Manage inventory using Netsuite and collaborating with team members.
- Take detailed notes on compatible parts and other issues pertaining to repairs or testing.
- Created process documentation in multiple areas to help detail the workflow of the department.
- Developed web applications to help repair and sales departments with their daily tasks.

Assistant Manager - Parkway Pizza

Aug 2018 - Apr 2022

- Managed the staff schedule to balance efficient service and cost.
- Collaborate on inventory management and purchase ordering.
- Operations supervision to ensure great customer service and reduce waste.
- Coordinate interviews and participate in hiring and training new employees.
